xTIP[®] Pipette Tips

Compatible with Rainin LTS Style Pipettes

xTIP[®] Pipette Tips feature innovation beyond ergonomics. FlexFit[®], X-Resin[®], and Blade[®] technologies, developed by Biotix, are found exclusively in Biotix and xTIP brand pipette tips. Biotix technologies minimize inaccuracies associated with the number one issue in pipetting: user error. These proven features are standard on all xTIP Low Retention Pipette Tips, maximizing accuracy and precision.

***No worrying, no guesswork.
Just the best tip on the market.***

xTIP® Features

INNOVATION	BENEFITS
FLEXFIT®	FlexFit's flexible proximal end ensures confidence in a secure seal with lower insertion and ejection forces
X-RESIN®	Naturally low retention minimizes sample loss during pipetting
BLADE®	Minimize surface area on distal end of tips leading to better precision

Additional Benefits to the xTIP® Include:

- Modern tip design and high quality manufacturing, with comfort and accuracy to maximize your results.
- Alternate supplier of tips so your research continues smoothly.
