

Biotix tips are molded with our proprietary low retention X-Resin™ resulting

in a uniform composition throughout the tip for ultra low retention. This low

Blade technology produces precise results while saving time by reducing the

binding polymer ensures maximum sample recovery of proteins, DNA, and

nanoparticles while ensuring accurate and precise measurements.

uTIP tips feature fine point precision with our **Blade™** distal end. By minimizing the surface area at the end of the tip, we have decreased the chance of burdensome hanging droplets sticking at the end of your dispense.

Clean Delivery

need for tip touch off.

## Biotix uTIP Pipette Tips

Compatible with universal pipettes including Gilson®, Eppendorf®, Biohit®, and more!

## **Ergonomic Fit**

FlexFit™ sealing technology makes an instant seal on universal pipettors. This patented feature consists of thick and thin ribs in the tip's seal area creating maximum flexibility. This flexibility allows it to easily conform to the shape of the pipette barrel and produce a secure seal.
