

## Introducing Pure Resin

Biotix is a sustainable manufacturer conscious of the impacts life science consumables have on the environment. We strive to leave nothing behind. With awareness of the impact additives from disposable plastic lab consumables have on the environment\*, Pure Resin is made of 100% virgin polypropylene. No additives are released into the environment. Pure resin products also comes in 100% recyclable packaging to help you advance your research and sustainability efforts.

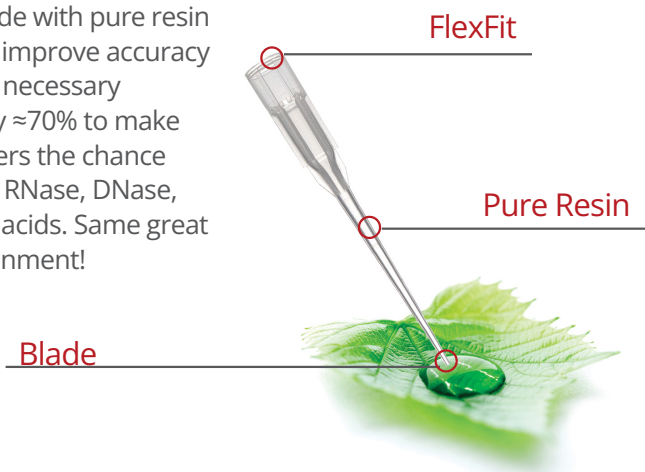

LEAVE NOTHING BEHIND®

## Pure uTIPS

Enhance the performance and accuracy of your experiments and improve global health with Pure uTIPs. Pure utips are made with pure resin and patented technologies to improve accuracy and precision. Flexfit™ lowers necessary insertion and ejection force by ≈70% to make a secure seal and Blade™ lowers the chance of hanging droplet formation. RNase, DNase, DNA, endotoxins, and nucleic acids. Same great tip and is better for the environment!
